call 1-800-286-5700

Message from CT Water - Boil Water Order - Chester, Guilford systems

This is a message from The Connecticut Water Company for customers served by our Chester System (PWSID# CT0261031) in Deep River, Essex, Haddam and Chester and our Guilford Water System (PWSID# CT0608011) in Old Saybrook, Westbrook, Clinton, Madison and Guilford.

We have detected E. coli, a harmful bacteria, during routine testing at one sample point in Essex and issued a mandatory boil water order. The bacteria can potentially make you ill. They may pose a special health risk for infants, young children, some of the elderly, and people with severely compromised immune systems.

We have consulted with the Connecticut Department of Public Health and are doing additional samplings at numerous locations in our delivery system. We expect results from those tests in 24 hours. We will contact you.

CRAHD will also update information regarding re-opening on its website at:
www.crahd.info

If you are served by a well and not public water, please disregard this notice.

Scott Martinson, MPH MS RS -Director of Health
CT River Area Health District
